

WEBINAR: Process Management

Overview

Process Management will aid any companies and each department to leverage on business processes to achieve goals and objectives. Managing organization's processes has plenty of benefits including increase in productivity, improve efficiency, satisfy customers and decrease costs. Managing process can also be used to improve any type of business process.

Processes are the steps or actions to produce organizational goals and objectives. It's the HOW things, tasks or activities are done? How to achieve the desired result? How to be efficient? How to utilize the people, technology and other resources to address problems?

This process management training will also cover related tools, concepts and applications.
